Fun in the Sun

The Seed will be
CLOSED
August 30 through
September 6

Summer Fun and Water Play

It's been a great summer! Water play, Silly Hat Day, Tie-dye shirts, lots of painting and art, Blue Day with blueberry Jell-o have been just a few of the summer time activities.

We'll miss Summer Camp but look forward to September.

Enjoy the photos of all the different adventures we enjoyed here this summer at The Little Flower of The Seed!

From the Coordinator

Summer has been wonderful here in the Little Flower Summer Camp. Morning begins with music class followed by snack, outdoor play and sprinklers. When we come in for story time and lunch, we feel cool, comfortable and very happy. Painting, puzzles, computers and more fun activities outdoors fill our summer afternoons, as we all have time to relax, play, share and make new friends.

We'll miss Summer Camp in the Little Flower, but look forward to a new school year with many more learning adventures together!

Happy Birthday

THE SEED DAY CARE CENTER
where children blossom

The Summer Camp Calendar of Events continued to bring a spirit of anticipation and fun to The Little Flower throughout the month of August. Obstacle Course Day, Silly Hat Day, Wear Blue Day, Make a Paper Puppet, Bubble Day and Ice Cream Dance Party were just a few of the daily activities that made summer camp such a wonderful experience. Not to mention water play! Every sunny day all the children put on swimsuits and laid out beach towels in our "beach" outdoors, complete with water table and sprinklers for keeping cool. Enjoy our pictures of "Summer in the Sunshine" at The Seed!

"THE SEED IS SUCH A SPECIAL PLACE. IT REALLY IS WHERE CHILDREN BLOSSOM."

Music and Movement

As they sing and move, the Little Flower children have enjoyed welcoming new friends to Music and Movement class. Songs and active music allow children to celebrate the newcomers by repeating each others' names. The different activities also bring the children together. The *Hokey Pokey* is an opportunity to make sure that everyone is holding hands. It is also wonderful to see how music is something that they naturally enjoy. They all want to play the different instruments and have a lot of fun with them, whether experimenting with the sounds, accompanying a piece of music or playing along as they sing.

The little Seedlings have been dancing the Chicken Dance, Mexican Hat Dance, and Dinosaur Dance. The movement activities allow them to be as active as they like and also use their imagination to be cowboys/girls, fly on an airplane, be tickled by Walter the Waltzing Worm (made out of a small piece of rope) and skate (on paper plates.) Everything is possible when it is Music and Movement class.
